Your Breakfast Club Delivery

The Breakfast Club is proud to be able to deliver fresh, varied, and healthy products directly to your school and across the province with the help of its valued food partners and carriers.

Deliveries are made Monday through Friday, every 2, 4 or 6 weeks, according to an established delivery schedule. The school is responsible for receiving* and storing the order.

Some unforeseen circumstances may make it impossible to deliver at the usual time and/or day, such as:

➢ Road traffic
➢ The weather
➢ Adjustment of delivery routes, etc.

It is therefore important to establish a system where the entire school team is involved in receiving food deliveries. Good preparation is the key!

Some suggestions:

➢ The people available at the time of delivery accept the order and put away the food that needs to be refrigerated (cheese, yogurt, etc.). Dry goods can be put away later.
➢ Mandate the custodian to receive the delivery and store the food to be refrigerated.
➢ Students in grades 4-6, accompanied by an adult, take turns working in a chain to get the boxes to the storage area.
➢ Team of volunteers specifically assigned to delivery days, etc.

The collaboration of as many people as possible is a guarantee of success for the operation of your breakfast program, including the management of deliveries!

* Important! Every time a school turns a delivery ruck away, we incur additional fees – something we should all try to avoid, knowing that every dollar counts in reaching out to as many children as possible!
